Digital Sublimation Textile Printer

- Speed of 2 pass can reach up to 150sq.m/hr supporting 4 epson printing heads
- Updated integrated capping station module.
- Equipped with constant tension taking-up system with improved motor, which ensures that media taking-up is stable from beginning to end.
- Introduce Gigabit data transmission port, which can meet the demand of huge high resolution file transmission and guarantees the stability.
- High quality core parts like THK guide, NSK bearing, IGUS chain, LEADSHINE servo motor etc., which composes stable printing system and giving excellent output.

Printhead	Epson 5113 Micropiezo Printheads
Printhead Quantity	4
Ink Color	CMYK
Resolution	360*1200 / 360*1800 / 720*1200 / 720*1800 (Dpi)
Speed *speed is tested on full-size media without feather function*	2 Pass - 150 m^2h 3 Pass - 110 m^2h 4 Pass - 90 m^2/h
Nozzle Quantity	3200
Print Width	1900mm
Print Height	2-5mm
Media Transfer	Auto Media Feeding and Taking-up System, Roll to Roll
Drying Method	Extra Dryer Device
Ink Supply Method	Siphon Positive Pressure Ink Supply
Head Moisture Method	Auto Head Cleaning Moisturize
Print Media	Transfer Paper
Transmission Interface	Gigabit LAN
File Forms	TIFF JPG EPS PDF
RIP Software	Maintop6.0/Photoprint/ONYX
Power	5KW
Ink Type	Disperse Ink
Computer System	Win7 64bit
Operate Environment	Temp.: 20-25^{0}C, Humidity: 35-65%
Dimension	3283*910*1650mm
Computer Configuration	Processor-Intel i5/i7, HDD space required – 500gb, RAM-8GB, Gigabit LAN
