

Bringing World's Most Cost Effective
Technological Solution

UNIX[®]
Bringing technological edge

Roll-Roll Paperless Rhinestone Transfer Machine

- Ideal for roll-to-roll fabrics and sarees
- Transfer paper not required
- Save paper cost
- Fully automatic features

- Economical production
- High production in less time (3000-5000 Mtr/10 hrs.)

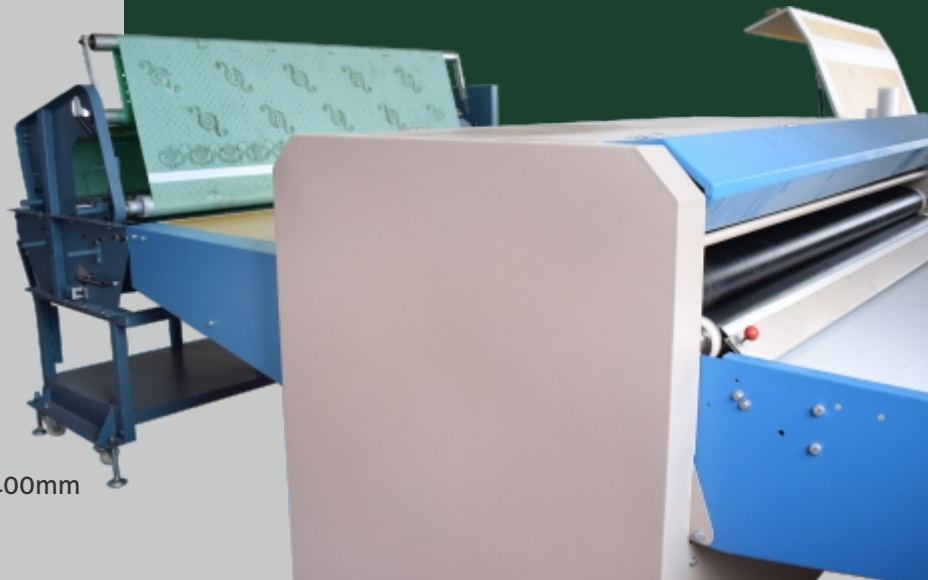

- Low investment
- Low maintenance cost
- Less labour required
- Less space required
- Less power consumption

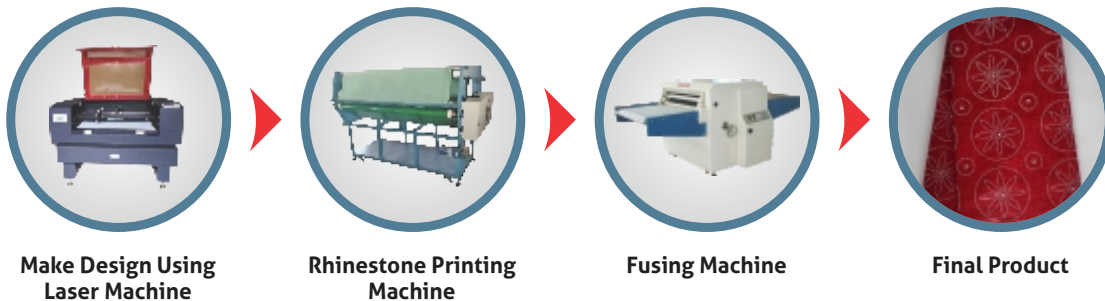

UNIX is pleased to introduce a revolutionary technology of printing rhinestone without any film or paper, directly on the fabric. It comes with two units, the first unit puts the rhinestones on the fabric, and the second unit does fusing to fix the rhinestone. So, ultimately, this technology eliminates the one complete step in this process ●

Technical Features

Working Power Supply	: AC220V 50/60Hz
Working Pressure	: 0.5 Mpa
Workng Width	: 1450mm
Max Fabric Width	: 1600mm
Power Consumption	: 600W
Speed	: 0-12M/min
Size of Stone	: SS10-SS20
Color	: Single
Weight	: 350Kg
Overall Dimensions	: 1100mm x 2000mm x 1400mm
