

# Upholstery Fabric Crochet Machine

UN-SGD1700S

**UNIX**<sup>®</sup>  
Bringing technological edge

UN-SGD1700S Upholstery Fabric Crochet Machine is used to embroider diverse laces for special jacquard fabrics such as window curtain fabric, table and towel fabrics, bedding articles, finished garments and different type laces and is a perfect supporting equipment for the knitting and garment making industries. This machine boasts a simple operation and easy maintenance. All the different laces are obtained by controlling the weft yarns through diversified arrangements for the pattern chain plates.
